Participating Community College MiTransfer Biology Pathway Worksheets

BIOLOGY PROGRAM WORKSHEET

DEGREE PROGRAM INFORMATION

Institution	Alpena Community College
Degree/Program	Biology
Credits Required	60

MICHIGAN TRANSFER AGREEMENT (MTA)

The MiTransfer Pathways builds on the Michigan Transfer Agreement (MTA). The MTA allows transfer students to select designated courses to complete a minimum of 30 credit hours fulfilling MTA distribution requirements. Students following MiTransfer Pathway agreements should complete the MTA in accordance with the sending institutions' course designations and consider whether any recommended MiTransfer Pathways major-specific courses will "double count" to fulfill MTA distribution requirements in planning their transfer. More information about the MTA is available at www.mitransfer.org.

The MTA Mathematics distribution area allows students to complete one of three math pathways. The Biology MiTransfer Pathways faculty recommended that students complete a course in the Calculus pathway.

MITRANSFER PATHWAYS COURSES

These courses are commonly agreed upon for transfer in this program around the state among participating institutions.

Pathway Course	Subject/ Course Number	Course Title	Credit Hrs
Cell/Molecular Biology	BIO 161	Gen. College Biology I	4
Organismal Biology	BIO 162	Gen. College Biology II	4
General Chemistry I	CEM 121	Gen. and Inorg. Chemistry I	4
General Chemistry II	CEM 122	Inorg. Chem & Quan. Analysis	4
Organic Chemistry I	CEM 221	Organic Chem I	4
Organic Chemistry II	CEM 222	Organic Chem II	4
TOTAL CREDITS			24

REMAINING DEGREE REQUIREMENTS

These are additional associate degree requirements that are not MTA or MiTransfer Pathways courses. They may not be accepted for transfer by universities participating in the agreement. If there are remaining hours, use the Remaining Degree Requirements in Appendix B identified by the university to which the student plans to transfer to select courses that meet bachelor's degree requirements.

General Education or Program Requirement	Subject/ Course Number	Course Title	Credit Hrs
American Government requirement	PLS 221 or 222; or HST 221 and 222	American Government and Politics or State and Local Government; US History I and US History II	MTA Social Science
Elective	MTH 131 or 223	Calculus I or Statistical Methods	5 or 4

ADVISING NOTES

Please indicate any advising notes for students following this transfer pathway at your institution.

Students should seek an appointment with an Academic Advisor to determine courses which best meet individual academic goals and to discuss transfer options including verification of courses towards the completion of the Michigan Transfer Agreement (MTA). Students must complete a minimum of 60 credit in approved courses to earn a degree at Kellogg Community College with a minimum cumulative grade point average of 2.0 or higher. Contact Academic Advising at kellogg.edu/advising or call 269-965-4124.

Service-Learning endorsement is required! Additional required degree criteria is listed in the KCC Academic Catalog under degree and certificate requirements.

Students should work with an academic advisor to determine the best elective courses based on individual academic and transfer goals.

ADVISING NOTES

Please indicate any advising notes for students following this transfer pathway at your institution.

Prospective students to Albion College are encouraged to become familiar with the Albion College Liberal Arts Core requirement. Students who have completed MTA requirements at their community college will be awarded fulfillment of all five Modes of Inquiry, accounting for half of the 10-course Core. Additional transfer coursework may be applied to each of the four Category Requirements, pending a successful petition by the student.

Courses listed on www.mittransfer.org that are approved as equivalent to Albion College Mode Courses will automatically fulfill that Mode of Inquiry requirement upon transfer.

Courses listed on www.mittransfer.org that are approved as equivalent to Albion College Category Courses may fulfill that Category requirement, pending a petition and review process.

For more information about the Albion College Core Requirement, please visit <https://www.albion.edu/offices/registrar/academic-catalogs/the-core-requirement/>

Students who transfer an equivalent of ENGL 101 (College Writing) with a B or better will be awarded fulfillment of the Albion College Writing Proficiency Requirement; otherwise, students may take ENGL 101 at Albion College and earn a B or better, or may take and pass the Writing Proficiency Exam.

For more information about transferring to Albion College, visit www.albion.edu/admission/transfer , or email admission@albion.edu .

BACHELOR'S DEGREE PROGRAM INFORMATION

Institution	Alma College
Degree/Program	Bachelor of Arts / Bachelor of Science in Biology
Credits Required	36-credits for the major, 100-credits additional for Core Curriculum and Open Electives to reach 136.

MICHIGAN TRANSFER AGREEMENT (MTA)

The MiTransfer Pathways builds on the Michigan Transfer Agreement (MTA). The MTA allows transfer students to select designated courses to complete a minimum of 30 credit hours fulfilling MTA distribution requirements. Students following MiTransfer Pathway agreements should complete the MTA in accordance with the sending institutions' course designations and consider whether any recommended MiTransfer Pathways major-specific courses will "double count" to fulfill MTA distribution requirements in planning their transfer. More information about the MTA is available at www.mittransfer.org.

The MTA Mathematics distribution area allows students to complete one of three math pathways. The Biology MiTransfer Pathways faculty recommended that students complete a course in the Calculus pathway.

ADVISING NOTES

Please indicate any advising notes for students following this transfer pathway at your institution.

Transfer Credit Policy (Policy replacing “Transfer Credit Evaluation” statement)

Alma College accepts credit earned from regionally accredited colleges or universities in the United States. International credit is evaluated using guidance from AACRAO and World Education Services.

An evaluation of credit earned is available upon submission of an application and transcripts to the Admissions Office. Transfer students entering Alma College with an awarded associate’s degree or comparable work ***will have the Explore and Theme requirements in the Core Curriculum waived***. “Comparable work” means the equivalent of four full-time college terms with a minimum of 56 Alma credits accepted for transfer. This must include at least three credits each of courses addressing laboratory science, arts or humanities, and social science, plus at least 9 additional credits of work outside of the primary area of emphasis.

All transfer students with 25+ credits will have the First Year Seminar (FYS) requirement and one Spring Term requirement waived. Students will still be required to take one Spring Term course at Alma. Limitations are as follows:

1. Only non-developmental courses that are graded “C” (2.0) or higher are accepted for credit.
2. All transfer students must complete the final 52 credits for the degree in residence at Alma or in an Alma-approved program.
3. Transferred credit must be documented by receipt of an official transcript from each institution attended.
4. Transfer credits from courses below the 100-level do not count toward the 136 credits required for graduation.

MICHIGAN TRANSFER AGREEMENT (MTA)

The MiTransfer Pathways builds on the Michigan Transfer Agreement (MTA). The MTA allows transfer students to select designated courses to complete a minimum of 30 credit hours fulfilling MTA distribution requirements. Students following MiTransfer Pathway agreements should complete the MTA in accordance with the sending institutions' course designations and consider whether any recommended MiTransfer Pathways major-specific courses will "double count" to fulfill MTA distribution requirements in planning their transfer. More information about the MTA is available at www.mittransfer.org.

The MTA Mathematics distribution area allows students to complete one of three math pathways. The Biology MiTransfer Pathways faculty recommended that students complete a course in the Calculus pathway.

ADVISING NOTES

Please indicate any advising notes for students following this transfer pathway at your institution.

The General Biology major does not require Organic Chemistry. However, the Biomedical concentration and the Biochemistry minor do require Organic Chemistry.

The additional courses are 100-200 level courses that students completing the Pre-Medical concentration with the Biochemistry minor would need to finish the major in two years.

This is an interdisciplinary major and does not require a minor.

The Bachelor of Science in Environmental Science offers comprehensive training in a variety of disciplines including Biology, Chemistry, and Geography. Students will be prepared for careers with government agencies, non-profit organizations, and businesses, as well as for graduate studies. Required classes provide both a firm scientific foundation and an environmental context for the science. Additionally, the major is characterized with extensive hands-on field and laboratory experiences as well as a required internship. Several electives provide an opportunity for students to customize their degree.
